

A Mission Opportunity:

***"let us not love with words or tongue but with actions and in truth."
1 John 3:18***

Can you imagine making the greatest difference in the lives of young children?

It can be accomplished through a unique educational program which assists youngsters in rural villages of Romania – the poorest nation in Europe. THE HOMEWORK PROJECT operates centers which provide tutorial assistance to school-age children to curb the alarming dropout rate among this group. These centers use the same educational materials as in the regular classroom, but with a staff dedicated to answering the questions and making certain everyone has equal access to educational success. The programs operate from September through May to coincide with the school year. In addition to the attention to their educational needs, children are also given a hot meal – for some, the most important nutrition of the day.

We can help by either supporting a center or by partnering with others to support a center.

THE HOMEWORK PROJECT invites you to visit their website: www.thehomeworkproject.com to see how to become involved. Peruse the pages, read the reports, think about joining a mission trip to Romania to see conditions first hand. Most of all, begin to imagine how you can make a difference in the future of a child.

"The Homework Project has become less about writing out a check and more about witnessing the positive change in a country still reeling from the collapse of the Communist regime in 1989."

Carol Pavlik, United Church of Christ National Website, 12/23/09
